PROFILE

Motivated software engineer with a passion for creating seamless, user-centric applications. Eager to contribute to innovative projects while continuously developing technical skills in a dynamic, collaborative environment.

WORK EXPERIENCE

ERP Developer | Nandha Engineering College

Jan 2025 - Present

Developed and maintained a college ERP software to manage and integrate academic and administrative processes.

Front-End Development Intern | CipherByte Technologies

May 2024 - Jun 2024

Developed responsive websites using HTML, CSS, and JavaScript. Gained practical experience in front-end web development.

Software Testing (QA Engineer) | Crypton Tech (P) Ltd

Nov 2023 - Jan 2024

Utilized Playwright and TypeScript to create and execute automated test scripts, identifying and documenting bugs.

PROJECTS

Hall Reservation

Designed and developed a responsive hall reservation website using HTML, CSS, and JavaScript, with Firebase for backend and database integration as a key group project in my college academics.

Portfolio

Developed a dynamic personal portfolio website using HTML, CSS, and JavaScript with a responsive design. Showcases my projects and skills.

To-Do List

Designed and developed a dynamic to-do list web application using HTML, CSS, and JavaScript. To manage tasks efficiently with a responsive interface.

Calculator

Developed a dynamic calculator web application using HTML, CSS, and JavaScript. To perform calculations efficiently with a responsive interface.
